## WHO ARE WE?

We are Reylita and Stephan, the couple behind Marriage in Hong Kong.

We would love to help you get married in Hong Kong, so you can be united with your loved one and live where you want to live – together.

It all started with our website and blog at: [meet-the-philippines.com](http://meet-the-philippines.com), where we shared our experience and thoughts, not just about the Philippines, but about how we got married in Hong Kong.

## MISSION

With the marriage in Hong Kong and our service, we wish to give you and your loved one the chance to see each other again and stay together, whilst having an unforgettable wedding.

## VISION

To be able to help every couple fulfilling thier dream wedding in Hong Kong.

# FOREIGN WEDDING PLANNING

When we started telling people about all the problems we encountered in regards to marrying in Germany or the Philippines, we received a lot of responses and feedback from couples, which were in the same predicament. For binational partners the waiting times are extremely long and the bureaucratic processes complicated.

Getting married in Hong Kong was therefore our last hope, which we stumbled upon by mere chance. If you compare the effort needed to get married in Hong Kong, opposed to getting married elsewhere, it became clear to us that this is what we need to do. If you organize it all perfectly, its even possible to do it all in one visit, in one week. So a small holiday can suffice.

## YOUR MARRIAGE IN HONG KONG: **GETTING STARTED**

Despite this, you have to keep in mind that HongKong is a huge cosmopolitan city, with skyscrapers as far as the eye can see and people rushing about their business relentlessly. Therefore, it is not easy to keep a clear overview and not to lose your orientation. Although we thought we were well prepared and paid for a guide, it was a lot harder than we thought.

Following our own complicated experience and so this doesn't happen to you, we created [MarriageinHongKong.com](http://MarriageinHongKong.com)– to help you get married in Hong Kong so you don't need to worry about anything but your special day.

By now, we are a well-set up team and have successfully helped dozens of couples get married and re-unite. We also have created a Facebook and Instagram page to spread the word and help more couples – so nobody needs to waste as much time as we did back then.

We would love to hear from you.

Warmest wishes,

Your Reylita and Stephan

# WHY MARRY IN HONG KONG?

When binational couples wish to get married, they often face a huge amount of bureaucracy. Getting married abroad can then be a very suitable and practical solution, especially in Hong Kong.

Here are some examples why marriage in Hong Kong is so unique.

**When a UK citizen wishes to marry his Philippine girlfriend /fiancée, there are usually just two options:**

- ✓ To marry in the UK
- ✓ To get married in the Philippines

But getting married in the Philippines, is more complicated, and on top of that, not recognised in the UK. So for Visa purposes, it's unfortunately completely useless.

It doesn't even matter whether your partner is from the Philippines, Vietnam, Cambodia, Laos or Thailand, sadly it's the same for each of these nationalities.

## **Marrying abroad as the solution – The quick dream wedding in Hong Kong!**

Getting married in Hong Kong is much more straightforward and in most cases does not require a certificate examinations/proofing. Additionally, the impediment to marriage certificate is also not required, which saves a tremendous amount of time.

Things you need:

## HONG KONG MARRIAGE REGISTRATION

All documents need to be presented in either English or Chinese (mandarin).

Certificates and apostilled documents in other languages need to be translated by official and licensed translators. The wedding itself takes place in English, for all other languages a translator would be required, whom you would have to organize yourself.

Since Hong Kong is a hub for international travel and business in Asia, flights are easy to come by and the city itself is magnificent and worth the travel! What a better way to start your married life than during a small holiday in one of the greatest cities on earth!
